

# [STRINGS MUSIC PAVILION]

Contact Steve Chambers for more information, 970.879.5056 x110 or [steve@stringsmusicfestival.com](mailto:steve@stringsmusicfestival.com)

*An intimate 569 seat music venue in Steamboat Springs, CO. With a unique bow string truss roof design, the stunning architecture allows the audience to enjoy the panoramic views of the Yampa Valley through the retractable glass doors. The Strings Music Pavilion is an exceptional experience for artist and audience alike.*

## SOUND REINFORCEMENT SYSTEM

Designed and installed by Summit Integrated Systems of Colorado to maximize the clarity of the amplified sound in a unique, live acoustic venue.

- Three (3) full range 3-way Danley SH46 main loudspeakers in an “exploded” mono configuration.
- Six (6) Bag End TA6000S full range 2-way front fill speakers set into the front of the stage.
- Loudspeaker management and DSP controlled by Biamp Systems AudiaFLEX-CM and loudspeaker amplification provided by Lab Gruppen class D amplifiers.
- Subwoofers: Two (2) EAW LA188Z speakers.
- Monitors: Eight (8) EAW MicroWedge MW12 full range 2-way floor monitors powered by Lab Gruppen class D amplification.
- The FOH sound/ light booth is located 40’ from the front of the stage, center. The FOH Board is a Behringer X32. Monitors may be run by iPad via X32-Mix, or through an Allen & Heath GL3000. 40X8 Horizon splitter snake – 3 way. Monitor station is stage left. **92 db limit in the house.**

## STAGE

54’ x 15’ with a thrust to 21’ in the center. The back wall is wood veneer, with a full length black curtain. No scrim.

## LIGHTING

Board is ETC Element 1024 with 2 17” LCD Monitors. Light trusses suspended from one ton pick points – no grid. Lighting appropriate for venue including:
